3. DESCRIPTION OF THE BUSINESS SCIENCES PROGRAMME

Minimum length of the course: 3 years

Number of credits: 180 (144 compulsory and core, 18 optional and 18 free choice)

*Credits are used as units of evaluation in teaching programmes. Each subject in the curriculum has an equivalent number of credits. Each credit corresponds to ten hours of theoretical or practical classes or their equivalent. The award of credits is subject to the systems of the University for verifying the acquisition of knowledge.

For the University's own subjects adapted to the EHEA system, which follow the teaching methodology of the ECTS system, 25-30 hours of a student's workload are equivalent to 1 credit.

The subjects on the curricula are of the following types:

1. Core subjects. These are set by the Spanish Ministry of Education and Culture, and must be included in all curricula leading to the award of the same official certificate.
2. Compulsory subjects. These are set by the University and students are obliged to study them.
3. Optional subjects. These subjects are set by each University. They are included in the University's curricula and students may select from the range of subjects available.
4. Free-choice subjects. Each University includes a percentage of these subjects as part of its total teaching load in each curriculum.
